Dear Valued Customers,

Subject: Notice of Changes to B/L Release Options for In-Transit Cargo to East African Destinations

Thank you for your continued support and cooperation.

We would like to inform you of a change in the B/L release procedures for in-transit cargo destined for East African destinations and discharged at Mombasa and Dar es Salaam.

Effective immediately, the following B/L release options will, in principle, no longer be available for such cargo:

- Issuance of Sea Waybill
- Telex Release
- B/L Surrender

This measure has been implemented to prevent unauthorized or improper cargo release. In cases where the importer is a foreign entity, local offices may not be able to independently verify the authenticity of an Authorization Letter submitted by a clearing agent on behalf of the importer, or confirm that the importer has authorized the agent to receive the cargo.

Should an exception to the above release options be required, prior approval must be obtained on a shipment-by-shipment basis.

We apologize for any inconvenience this may cause and sincerely appreciate your understanding and cooperation as this measure is intended to ensure the safe and proper release of cargo.

Yours sincerely,

Tokyo Head Office
